

WATERBURY

MAKE IT BESPOKE.

**Accessories crafted to last,
uniquely made for you and
your project.**

Each project is different and while we offer a wide variety of designs and styles, you might be looking for something a little more individual.

We have a team dedicated to designing and developing bespoke accessories for unique applications. We can change product dimensions and adapt shapes, add colours and PVD, powder-coated or plated finishes. Just about anything is possible.

OUR TAILORED APPROACH

ALTERNATIVE FINISHES & COLOURS AVAILABLE ON ALL* OUR PRODUCTS

If you want a look that's as individual as your customers, our bespoke service gives you unique, made-to-measure fittings – in the style, colour and finish that you choose. We offer a wide range of high quality alternative finishes, and can manufacture products to meet your requirements.

PVD

The most durable finish you can apply. Products with a PVD finish won't corrode, discolour or tarnish. Ever.

RAL

With our bespoke epoxy powder coating, we can match products to most colours on the RAL chart.

We can match to many alternative finishes including:

Brass

Black

Copper

Antique Copper

Antique Brass

Satin Nickel

Polished Nickel

YOUR VISION, OUR CRAFTSMANSHIP.

We'll make it as easy as possible for you. Our team will work closely with you at every stage, producing drawings, images and 3D visuals of the finished design so you can see exactly how it will all fit together.

SELECTED PRODUCTS

QUALITY INNOVATIVE DESIGNS

Founded by Thomas Armstrong, and still family-run in Birmingham, Waterbury manufactures and supplies beautifully styled bathroom accessories for commercial applications.

Our designs evolve as trends come and go, and our products become more durable as technology advances.

But as you might expect from a company that was founded by a master craftsman in 1935, our approach to quality and the way we look after our customers is nothing but traditional.

We're constantly updating and improving our ranges, and we use only the best materials. We are proud to hold a ISO 9001: 2015 certification.

FOR OUR
COMMITMENT
TO SUSTAINABILITY,
SEE PAGE 23.

GENERATIONS OF NEW IDEAS

Each generation has brought new talent and fresh ways of working to Waterbury - from the early days of mass production to the global sourcing and quality systems that became vitally important as the company began to expand.

Our customers inspire us to be creative and do things differently. Working with Copthorne Hotels, we were among the first to supply bathroom 'pods'. In the 1980s, we started a continuous refurbishment programme for Trust House Forté, one of the largest hotel chains in Europe. We're continually designing new, stylish ranges.

1935

Waterbury is founded by Thomas Armstrong, a skilled craftsman of fine brassware. The company starts as it means to go on - focusing on design and using only the best quality materials.

1940's

Thomas's son, Philip, introduces batch production, electroplating and fabrication. We can now supply larger quantities of high quality chromium plated accessories to a wider market.

1970's

Andy Armstrong helps Waterbury develop new and exclusive designs. This, along with his investment into global sourcing and quality systems, sets us on the path to worldwide manufacture and supply.

1980's

John Armstrong brings his considerable sales talent to Waterbury and we fulfil a contract to supply accessories to Birmingham's 150-room Copthorne Hotel. Soon we're asked to supply all of their hotels, at home and abroad.

2020's

An era of investing in technology begins. CGI enhances our design process, while a new generation of Armstrongs - Ashlene, John Junior and Richard - take CGI, digital marketing and web development to a new level.

'AT-A-GLANCE' DESIGNERS GUIDE

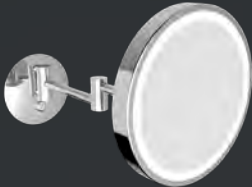

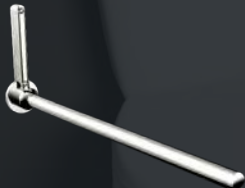

BATHROOM ACCESSORIES MADE TO LAST

WATERBURY
20 YEAR
GUARANTEE

Waterbury accessories are made using the highest quality raw materials and most are backed by our 20 Year Manufacturing Guarantee.

Many items are held in stock for fast delivery and our support team can give you lots of advice about dimensions, designs and availability. Call us on +44 (0) 121 333 6062.

PLEASE GO TO PAGE 85 FOR AN INDEX OF PRODUCTS FEATURED IN THIS BROCHURE.

VANITY MIRRORS

We've expanded our range of Vanity Mirrors - creating unique and individual designs reflecting the latest trends and styles in bathroom decor.

FREE STANDING COSMETIC MIRRORS

A new collection of pedestal style mirrors with a choice of attractive finishes. With options including LED, non-LED, battery powered, mains connection and adjustable mirrors.

WALL MOUNTED COSMETIC MIRRORS

Our wall mounted cosmetic mirrors include a variety of designs, shapes and finishes. With features like touch sensor buttons, LED lighting, double arm or single arm and adjustable mirrors there is something for every project.

TAILORED TO YOUR PROJECTS

WE CAN MAKE OUR VANITY MIRRORS TO YOUR SPECIFICATION

We offer a wide range of high quality, alternative colours and finishes and most mirrors can be modified to meet your requirements. If you want a look that's as individual as your customers, our bespoke service gives you the style, colour and finish you want.

COLOURS & FINISHES

Make your design your own - our huge choice of colours and finishes will fit perfectly with any colour scheme you choose. From Antique Copper to Traffic Light Red, we can finish any of our mirrors in durable PVD or match them to a RAL colour.

BESPOKE SIZES*

From small standalone mirrors to large wall-mounted vanity mirrors up to 1.9m x 1.2m, we can help you create stunning effects for your project, limited only by your space.

Every project is unique, and our mirrors suit most applications, but if you need a different size, we can quickly assist. Many of our mirrors can also be customized with additional features for a more personalized touch.

CUSTOM ILLUMINATION

We can add illumination to most of our mirrors. LED lighting is activated using a single touch sensor switch and three standard light temperatures are available - 'warm' (3,000k), 'natural' (4,000k) and 'daylight' (6,000k).

For different lighting at different times of the day, you can choose all three in one mirror with the option to toggle through the modes, switching seamlessly between them. You can also add a dimming feature for complete control over your environment.

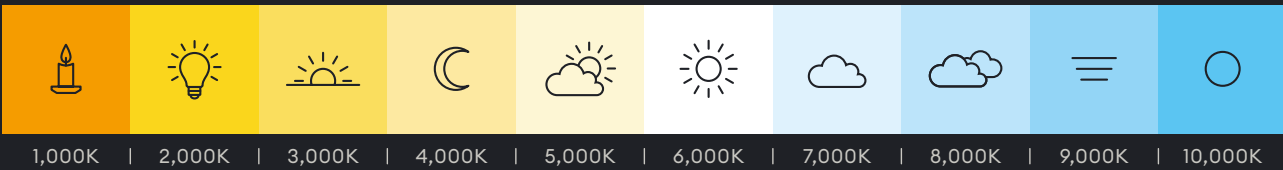

ALL OF OUR LED MIRRORS ARE IP44 RATED AND SUITABLE FOR BATHROOM USE.

< WARM LIGHT

DAYLIGHT

COLD LIGHT >

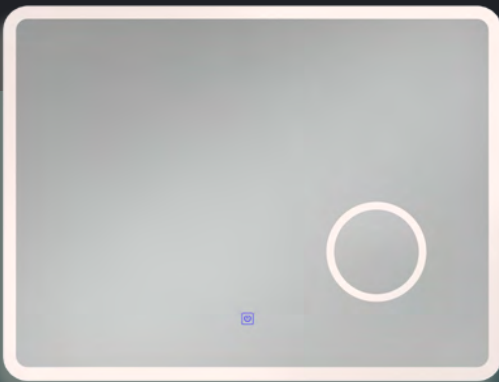

ADDITIONAL FEATURES*

Most of our mirrors can be modified by adding one or more additional features. As well as standard extras like frames and magnifiers, we can add 'smart' features to most models such as lighting, touch display, automatic de-misting, built in speakers and bluetooth connectivity.

As technology moves on, the list of features we can include continues to grow. If there's something you'd like to add to your mirror, just ask one of our sales team.

SUSTAINABILITY

WATERBURY

Waterbury are committed to the sustainable development, production and supply of products and we are currently working toward announcing our Net Zero pledge.

- Solar panels installed at our Head Office and Warehouse facility
- Motion sensor controlled LED lighting in Warehouse and Offices
- Use of non-ferrous materials, such as Brass and Stainless Steel, for great longevity of product use and easy recycling at the end of product life
- Brass (for example) can be recycled an infinite number of times without diminishing it's properties and it's estimated that around 90% of global production comes from recycled sources
- All our mirrors use energy saving LED lights
- All our mirrors are 'copper free' which means they are 3 times more resistant to corrosion as well as removing the need for environmentally harmful materials such as Copper Sulphate, from the manufacturing process

WALL MOUNTED MIRRORS

STYLISH AND CONVENIENT

Our range of wall-mounted cosmetic and shaving mirrors is now even bigger and includes a wide variety of shapes, designs and finishes.

Fully adjustable, with double or single arms, they can include features like 3x magnification, touch sensor buttons and LED lighting.

GLASS MOUNTING

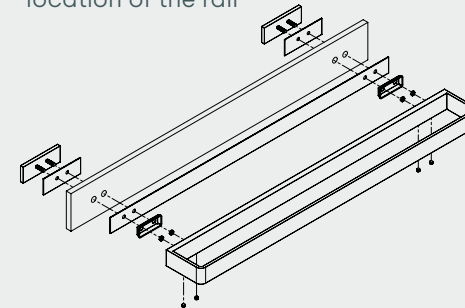

WATERBURY
20 YEAR
GUARANTEE

VERSATILE AND SPACE SAVING

Simple to install, glass mounting looks stylish and gives extra flexibility to your bathroom layout. Both Quadra and Atlantis ranges and selected products in our other ranges can be fixed to glass, acrylic or other material in any thickness.

SIMPLE INSTALL

1. Drill holes in the glass at the required distance
2. Insert plastic washers (supplied) to protect the glass
3. Slide one of the threaded bars (on the pull knob) through the glass
4. Fix the thread into the inside of the rail - do not overtighten at this stage
5. Slide the other threaded bar through the other hole and fix into rail
6. Tighten fully when both threads are in place and you are happy with the location of the rail

TO ENQUIRE ABOUT OUR GLASS MOUNTED PRODUCTS PLEASE CALL OUR TECHNICAL SUPPORT TEAM ON **0121 333 6062**

HERITAGE

TIMELESS TRADITION

Embrace the vintage beauty of our new 'Heritage' range, perfect for adding a touch of timeless elegance to any 21st-century bathroom. Every curve and detail of the range harks back to the heritage of Waterbury, and is designed by the grandson of our founder.

With classic shapes and ornate finials, each piece embodies the essence of quality and style that has been our driving force since 1935.

Trust in the 'Heritage' range to stand the test of time, just as our heritage has endured through the ages.

VODA

CONTEMPORARY AND STRONG

Voda offers simple, modern styling at a cost that's affordable. But it's also extremely strong – the Voda Support Rail can sustain a maximum weight of 180kg so it's the perfect choice for the less able. Who says you need to choose strength over style?

OUR DROP DOWN RAILS WERE INDEPENDENTLY TESTED BY FIRA

The Furniture Industry Research Association was established over 60 years ago by the furniture industry for the industry.

FIRA International provides a wide range of independent expert services that are not only dedicated to the global furniture supply chain but also to furniture consumers and continues safeguarding the industry through managing the Association's membership activity.

COLOUR MATCHED 'DOC M' GRAB RAILS

The popular Voda range of 'Doc M' grab rails is now available with an expanded selection of colors, allowing for better coordination with other fixtures and accessories in your design scheme.

Colour accessories provide contrast for the visually impaired where necessary. Gloss or matte finishes are available.

Call us on 0121 333 6062 & speak to one of our Sales team for more details.

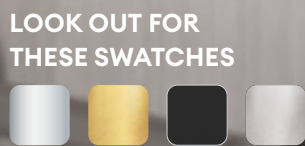

PROTEUS

AWARD-WINNING DESIGN

The striking looks of Proteus are matched only by its strength. With full Doc M compliance, the Proteus Drop Down Rail has been independently tested to withstand a weight of 208kg. It even won the BCFA Design Award, helping us to redefine the style standard in accessories for the less able.

ISAMAR

SLEEK AND SIMPLE

Delightfully minimalist, Isamar makes a statement. It's sleek, simple, adds style to any bathroom and is a breeze to install..

Isamar has a Fast Fit feature, where the accessories can be fitted in less than half the time of a standard range and use fewer fixings without the need for grub screws.

It's a cost-effective option for commercial applications.
