Child Safety is Everyone's Business

Hoteliers have a responsibility to provide a safe sleep environment for their most precious guests. It is an initiative that starts at the corporate level but requires action and due diligence of property management and the housekeeping staff. Foundations®, the world leader in hotel cribs, has developed crib safety training resources and best practices to assist you in carrying out this initiative.

Sudden Unexpected Infant Deaths (SUID) has declined considerably since 1992, but in 2015 alone there were still nearly 3,700 sudden unexpected infant deaths in the United States. The American Academy of Pediatrics recommends a safe sleep environment that can reduce the risk of all sleep-related infant deaths.

Breakdown of SUIDs by Cause, 2015

43% Sudden Infant Death Syndrome

32% Unknown Cause

25% Accidental Suffocation and Strangulation in Bed

ALWAYS PROVIDE A CRIB TO GUESTS WITH INFANTS AND ENCOURAGE ITS USAGE

- The United States Consumer Product Safety Commission found that placing babies to sleep in adult beds puts them at risk of suffocation or strangulation.
- Studies have shown that nearly 74 percent of deaths in babies younger than four months occurred in a bed-sharing situation.†

† Pediatrics. Official Journal of the American Academy of Pediatrics. July 2014, Volume 134/Issue 1
