Hotel Supply International

Conference & Banquet

COMPANY PROFILE

Guestinhouse Hotel Supply International is a full-service provider of hospitality products to the lodging industry. Guestinhouse carries an extensive variety of products covering the needs of each hotel area including the meeting rooms, front office, public areas, restaurant, kitchen, bedrooms, bathrooms, housekeeping department, and conference areas.

Guestinhouse only provides the highest quality products manufactured with the latest technology and highest standards in the industry. Our product line is continuously being updated according to the latest innovations and trends in hotel business.

We provide numerous alternatives for different project specifications. We find solutions to meet the standards each project requires. We have the capacity to customize the basic features of our products including material, size, and color. We can add new features to existing products or create new products for different projects if needed. The products listed in our catalog are only a sample selection of what we are capable of providing.

As a result of our dedication to customer satisfaction, we deliver the right product, at the right price, at the right time. Our customers count on us for their most important projects knowing that their happiness is our first priority and each individual detail is under our responsibility.

Having the geographical advantage of being located in Istanbul/Turkey where three continents meet, Guestinhouse markets its products primarily in Europe, Middle East, and Africa. United States of America and Far East are also rapidly becoming important business areas for Guestinhouse.

Our goal is to make hotel guests feel at home during their stay away from home. Guestinhouse is not just about one-stop hospitality shopping; but it is about guiding hospitality industry professionals in the right direction to make informed and correct procurement decisions.
